

Graduate Programs in ENGINEERING MANAGEMENT

UMBC
AN HONORS UNIVERSITY IN MARYLAND

Master of Science:
Engineering Management

Post-Baccalaureate Certificate:
Engineering Management

Engineering Management - a professionally-focused and relevant graduate degree

- » Learn to manage complex technological and business-related problems present in today's economy.
- » Develop leadership and project management skills to successfully lead technical teams.
- » Acquire new skills in your chosen technical field.

When you choose UMBC Professional Programs, you can count on:

- » Courses developed and taught by industry experts and designed to address real-world problems in the workplace.
- » Flexible evening class schedule that accommodates working professionals.
- » Wide-ranging resources offered at a top-notch public research university.

Why UMBC?

- » UMBC provides a comprehensive and quality education at a manageable cost.
- » The 2017 *U.S. News & World Report Best Colleges* guide ranks UMBC in the top five on its closely-watched Most Innovative Schools list and has recognized UMBC as a global leader in higher education.
- » UMBC is classified by the Carnegie Foundation as a Research University (High Research Activity).
- » UMBC is uniquely positioned to provide education and training that respond to the state's need for qualified technical professionals in the engineering field.
